SUMMARY

Senior Splunk Consultant with 6+ years of experience specializing in ITSI, Splunk Observability Cloud, and enterprise Splunk deployments. Proven track record delivering complex implementations for enterprise clients at TekStream Solutions, with deep expertise across the Splunk platform including Cloud, Enterprise, and IT Service Intelligence. Passionate about leveraging emerging technologies including AI to drive smarter observability and operational resilience.

Enterprise Splunk Implementations · ITSI · Observability · Client Advisory · AIOps · Splunk Cloud Migrations · Data Analytics

PROFESSIONAL EXPERIENCE

Senior Splunk Consultant

TekStream Solutions

08/2025 - Ongoing · Atlanta, GA

- Lead complex ITSI engagements, providing senior-level guidance on architecture and implementation best practices.
- Worked in Splunk Observability to monitor Kubernetes clusters, Linux, Windows, and other systems through spans, traces, logs, and metrics.
- Authored technical blog posts for TekStream Solutions covering ITSI new features and observability tooling, contributing to thought leadership in the Splunk community.
- Mentor junior consultants and serve as a subject matter expert on Splunk platform capabilities, data ingestion, and ITSI configuration.
- Partner with clients to develop strategic observability roadmaps aligned with their IT operations and business goals.

Splunk Consultant

TekStream Solutions

05/2022 - 08/2025 · Atlanta, GA

- Delivered end-to-end Splunk Core and Splunk ITSI implementations for enterprise clients across multiple industries.
- Designed and built custom dashboards, alerts, and reports using SPL to provide clients with actionable operational insights.
- Onboarded and integrated diverse data sources into Splunk environments, including infrastructure and application log ingestion.
- Collaborated with client stakeholders to define monitoring use cases and translate business requirements into Splunk solutions.

Project Specialist

NRC Health

05/2019 - 05/2022 · Atlanta, GA

- Managed a portfolio of 30–40 enterprise clients simultaneously, overseeing \$4 million in contract value across project implementation and ongoing support.
- Partnered directly with clients to review Star Ratings calculations, identify discrepancies, and resolve issues with ratings display.
- Delivered data analytics, software support, and vital training to client staff to drive platform adoption and performance.
- Programmed and monitored Smart Request, a multiplatform survey feature that surfaced Google and Facebook listings for surveyed physicians to encourage public reviews and improve online reputation.

EDUCATION

Bachelor of Science, Information Technology

Georgia Southern University

08/2015 - 05/2019 · Statesboro, GA
